[Chorus]:

Do you wanna fuck?
Yes I wanna do
I wanna put my dick in you
I wanna make you scream my name
It is a game, we both know

Do you wanna fuck?
Yes I wanna do
Do some nasty things with you
I will make you moan
And it's more like porn
And you know I don't stop

I can't control it, I'm goin' lose it, I lose it now
My dick is ready
I must juice it
Hold it steady, I am shakin' like a mothafucker every
time I'm with you
And I know that's our future, Coz' I can see it in you...
That you want me
You wanna get in my pants
You wanna rip my clothes off and touch my body with
your hands
Our plans for fields, here's a chance for real,
Give me a sign let me know dirty girl how you feel
Such a feel to the fullest, shootin' sperms in bullets
I wanna grab your jeans now and pull it
Down on the ground n' see that sexy ass
Those panties girl I know that our sex will last(a long
time)
Be around, for a couple hours
On the table, in the bed, on the floor, in the showers
Watch the water round down your backside(ssss)
Spank that ass, put it in, let's go for a hell of a ride
And then she ask me

[Chorus]

We have kissin', tongue kissin'
Nothings missin'

I touch your pussy
You are moaning n' I wishin'
That I rip your panties off on the bed, in the room
That I'm acting real though and feel my head with your
perfume
(Boom Flav) Girl tell me how, Human is to make me feel
so horny and hot now
Allow me to satisfy you and your fantasy
Is it anything that you want nice if you Imagine me
What you want? How you want it? What to like?
I would take you to heaven in our bed room fight
Is it a first class flight, we taking off to night
And we ain't landing until we see that sunshine light
Is aight if you want me to slow me down (What the
fuck?)
But I wanna be that pussy up and down all around
Make them sounds
That will disturb my neigboors
But fuck that shit they'll know Byz the pussy Xavier
And then she ask me

[Chorus]
X3

I know that you want it girl
I know that you like it girl
I know that you need it girl
I know you love it girl
X2

[Chorus]
X3
