Trapped in a dream, future death  
And walls painted with blood  
Spirit hunter, he sees you well  
Trying to take you to his hell

Walking alone on death row  
Hidden keys I will search  
Unreal site, natural fate  
Let me escape from this trance

[Chorus]  
Watching my own death  
Painful ripped flesh  
Exploring ways of mind  
Dreams in sight; you're next to die  
Enslaved by the dreams  
Evil won't let you win  
Terror while you sleep  
Roaming free on deadly dreams

My body sleeps, my soul creep  
Like a snake paying sins  
Christ cannot help me, I have no force  
Fastened on the way of evil throne  
Uprising inside, resting with pain  
I've been stricken by fate  
Lucifer laughs, no one hears me  
Sentence is now, never free
