### "Killing The Pharisee"

The kings of hell sent us a plague  
With scars of hate by the chosen one  
The plague was Phrarisee that followed Christ

[Chorus]

Feel the winds of death in your face  
Just his eyes will see his end  
Sinner! You spit on the cross  
Killing you! Feel your betrail on the skin

The rage of god will fall without mercy  
With Gabriel's return expursing from Earth  
The gates of Eden are closed to him  
So the betrayer was accursed forever here

[Solo: Regep / Perfetto / Regep / Perfetto]

See? He died by rage of god!

The clouds of hell are full of sin  
Following Pharisee through four points of Earth  
With his cursed soul Pharisee awaits  
The end of times to rebirth again
