"My Refuge, My Strength"

Visit "[My Refuge, My Strength](#)" on MotoLyrics.com

God is my refuge, yes he is
the lord is my strength
He's a very present help, Yes he is
(When troubles come my way)
The trials of life sometimes may way you down
but the greater one still lives in you
(so you'll come out on top)
No matter what trials in life may come
(He is my refuge)
And in my weakest time I know
(the lord is my strength)
So don't get weary cause he will
(He'll bring you out)
The lord is my strength, my strength
The lord is my strength, my strength
Sopranos- What they meant for evil
Everybody- God turned it around
I didn't even have to fight
(Cause he made it alright)
There's no one who's going to stop
what the lords going to do
so praise him in advance right now because
(All his word is true)
No matter what trials in life may come
(He is my refuge)
And in my weakest time I know
(the lord is my strength)
So don't get weary cause he will
(He'll bring you out)
The lord is my strength, my strength
The lord is my strength, my strength
He is a present help
He is a present help
He is a present help
You will help me
My Refuge
My Strength
He is my strength
The lord is strength
