Restore your life and relax in your bed  
Think! In your day and senses  
Reduce all your endless thoughts

Conclusion of pain! Pain of heart  
Death no! Sadness! That's strange  
This fucking life, my inner self wants live

Simple glance, a movie in your brain  
Vicious mind, bath in blood  
Inner rot... Explode in a scream  
Run and don't look behind! The cruel fate

Now it's time I see a smashed face  
Deformed, in darkness all proclaim  
No one! Save their rotting mind

The time goes on... It seems bought life  
I feel... Included the real pain  
But now... Isn't time to open my eyes
