Hook:

Net weight gotta make papes  
Multiple ways to get paid these days  
Net weight various ways to make figures  
And when it comes to money yo Grant's my nigga (x2)

Verse 1:

A-yo take a moment and recognize I'm not average  
everyday  
Act to display or disguise my enterprise in a wrong way  
I got the rightaway, position myself for a brighter day  
It's goin' okay  
Like chron mixed with Alize on Friday a highday  
I got two dice a Paradise (pair of dice) like Sade  
Whenever I innovate precise words demonstrate  
You're hooked like bait and bent all out of shape  
To see me carry my net weight and gain adrenaline  
I rock a rhyme like a timberland pole with soul  
Emblem, Barber Shop is hemmin' 'em up  
Subliminal stuff diamond in the rough  
Mentally hand cuffed

Hook

Verse 2:

Net weight your midstate I anticipate this year alone  
To microphones and money I'm prone it's on  
To do what I gotta, rent a room at the Ramada  
In any state I make the rhyme rate harder to deal with  
Ill shit take a whole lot energy and Henessy your  
remedy  
Remember me, on a long term ready to skip a quick fix  
And guess who's in the mix on deck with the Knicks  
Sickly I approach, genuine like leather bags from coats  
To raps what I wrote sit back and take notes  
Get up and perform I make the mic warm  
A-yo this ain't the norm  
MC with procedures at my leisure  
Get the doe from the promo before he catches  
amnesia

Hook

"That's why we gotta make moves"

Verse 3:

Net weight gotta make papes in an orderly fashion  
Blastin' give me the loot I ain't askin' a damn thing  
I be pullin' women like a hamstring  
You be puttin' down payments on a romance ring  
Fancy things while I stare with the glare that's rare  
Beware this sonny don't share his goods he shares his  
bads  
He shares his ? and height drags while he smoke his  
bags  
Toes get tagged, travelin' on a straight line  
People get they're ear to the grapevine  
Twine twine and take mine  
But they can't get near the brand new tear for this year  
And grew the trick weed plus gear  
I got the antidote for sounding dope  
And I hope for nothing  
Learn everything to earn net weight for something

Hook

"Yo where's my weed at?"
