Don't look down
You're afraid of the pedestal
So don't look down
It feels just like a growing addiction
Love and hate is some contradiction
And turn around around till you lose your mind
(Lose your mind)

All they do is break you up
And I keep dancing an' I keep moving
But all they do is break you up

Cause it's just like you to take advantage
Just like you to cause the damage
So don't stop keep moving
This beat is grooving
Step into my elevator
Where the sun don't shine a minute later
Don't stop keep moving
This beat is grooving

You're taking your time
And you're telling me to unwind
I'm thinking you're scared...
And you can't look me in the eye
It feels just like a painful affliction
And now we move in different directions
And turn around around around and don't look down
(Don't look down)
