Have you listened to a word i said?
Is anything going through your head?
I never thought it could feel this good to see you smile
It doesnt matter if it takes all night
just as long as you feel alright
I never knew it could feel this good to be with you

And i know youll never say that its alright
and i know youll never change but thats ok

Say hey, do you feel the same?
You can say that life is easy let the sun shine on
everyone
say hey do you feel the same?
Now you can say youre not the only one
The sun will shine on everyone
Say hey yeah

You can stop... ask me why
you can say you need more time
take a chance and believe you will see it was worthwhile
Have you listened to a word i said?
Is anything going through your head?
I never thought it could be this good to see you smile

And i know youll never say that its alright
and i know youll never change but thats ok

Say hey, do you feel the same?
You can say that life is easy let the sun shine on
everyone
say hey do you feel the same?
Now you can say youre not the only one
The sun will shine on everyone
Say hey do you feel the same?
Now you can say life is easy
let the sun shine
say hey do you feel the same?
now you can say youre not the only one
the sun will shine on everyone
Say hey do you feel the same?

Do you feel the same?
