Visit "[Something To Talk About](#)" on [MotoLyrics.com](https://MotoLyrics.com)

You see me jump the other side  
I'm swimming up against the tide  
I had my reasons to be there  
Not for you and not for anyone else

I'll take a second of your time  
You give me yours I'll give you mine  
We should be taking it somewhere  
With a smile and not a care in the world

You give me something to shout out  
You give me something to talk about

You got me shouting you got me jumping off the walls  
You got me high you gimme something I can change  
I dunno why I dunno why we're walking out the door  
You got me walking out the door  
... shout... shout  
Shout out

And you give me something to shout out  
And you give me something to talk about

Sometimes I recognise my face  
There's something I cannot replace  
I've got my reasons to be here  
Not for you and not for anyone else

You give me something to shout out  
You give me something to talk about

You got me shouting you got jumping off the walls  
You got me high you gimme something I can change  
I dunno why I dunno why we're walking out the door  
You got me walking out the door  
... shout... shout  
Shout out
