"Winter Day"

Walking down to Camden town
I bought myself a lovely gown
I only paid a lonely pound
Cause nothing is for free

I put out a cigarette
And wrote a note lest I forget
The silly things that you'd have said
The ones reserved for me

Cause I am nothing without you by my side
Close to nothing If I ain't got my pride
I can't believe ever say
The nasty things you said today
Cause I am nothing on a cold Winter day

Wear my coat I'm all wrapped up
Tea and Milk in a paper cup
Wish I wasn't so shook up in my simplicity

Break is over walk to work
Pretend I oughtta save the world
But all I do is face the dirt
Dished out for you and me
