"Love Survives"

Now I know you're safe here in my heart
You will always be with me
We'll never be apart
Never knew how strong my love could be
You're the one I've waited for
Now you're home
I believe
::Chorus::
Love survives beyond our lives
I feel those ties growing stronger (Growing stronger)
Love survives the tears we've cried
Yes, love (Yes, love)
Survives it all
Love survives it all

Even when we want to run and hide
Love comes in to pull us through
From deep inside
Oh, the magic (The magic)
Has made us who we are (Who we are)
Don't you see we've come so far?
Take my hand
You made me understand

::Chorus::
Love survives it all

::Chorus::
Love survives it all
