[words by Gene Clark]

Drifted in school
Daddy is a fool
We know someone's on your mind
Women whose phase
Velvet and lace
Curling couplets into time and space
Meet the man who needs you now
Can you give your love away like Candy?
Down on your knees
Trimming the trees
Can you imagine what it's like?
Lovers lament
General dissent
Doctor's orders are unkind and bent
Meet the man who needs you now
Can you give your love away like Candy?
Instrumental (Electric Guitar)
Very profound
Merry-go-round
Spinning innocence and dreams
Can you believe
All you perceive
Love is never what it seemed to be
Meet the man who needs you now
Can you give your love away like Candy?
