If i'm out of touch
and need reminding
just tell me i have been found
i'm walking to a new dimension
i have left familiar ground
all the things i do
they may seem to you
as false behavior but i cant
really change your mind
this is my time
annie you would not understand

I've become blind
have i lost my mind
yes and no but annie would i lie to you
i've got control
this is my show
listen to me annie would i lie to you

somebody filled my head
with enough delusion
they have let me out to play
when you see me lie back
in temptations arms
and have it all my way
i still have my name
i still have my face
i have not run away from home
does it seem so wrong
if i now embrace
every single thing i've never known

I've become blind
have i lost my mind
yes and no but annie would i lie to you
i've got control
this is my show
listen to me annie would i lie to you

and tonight i'll stray i'll go too far
but only in your eyes

and for my own good
all i knew will soon be dying
soon be dying

I've become blind
have i lost my mind
yes and no but annie would i lie to you
i've got control
this is my show
listen to me annie would i lie to you

i still have my name
i still have my face
i have not run away from home
does it seem so wrong
if i now embrace
every single thing i've never known

I've become blind
have i lost my mind
yes and no but annie would i lie to you
i've got control
this is my show
listen to me annie would i lie to you
annie would i lie to you
annie would i lie to you
