"Island"

And the situation's over
It don't lie
And it makes you wonder too hard
Who'd be right

Come with me to see one last thing
I've got time
And I want to show you something
You might like

I can feel it now
Oh the place I pray to see
Something lost is found
Leaves our souls forever free

Everything we really wanted
Enters clear
Take a look around
Go walking
See what's here

Stay inside my dream until our
Time wears thin
Walk out on this island with me
Then turn in

Can you feel it now
Oh the place I pray you see
Something lost is found
Leaves our souls forever free
(I can feel it) (x3)
