"Safety Net"

Visit "[Safety Net](#)" on MotoLyrics.com

It's impossible to stay on the wire
When your world is up in flames, on fire
Wondering what it's gonna take, I'm on the edge
And it's a simple leap of faith

It's too late, will you be there for me?
I'm ready - bombs away

If I fall, fall into your safety net
Would you hold me in your arms and let
Me unbreak what was broken? It's not over yet
Let me fall into your safety net

I remember when you said that we'd be flying
Just like angels in the sky, till the end of time
So crazy in my head, let it be over
'Cause I wanna feel instead

It's never too late, will you be there for me?
I'm ready - bombs away

If I fall, fall into your safety net
Would you hold me in your arms and let
Me unbreak what was broken? It's not over yet
Let me fall into your safety net
Safety net

It's never too late, you will be there for me
I'm ready - bombs away

If I fall, fall into your safety net
Would you hold me in your arms and let
Me unbreak what was broken? It's not over yet
Let me fall, fall
Let me fall into your safety net
