We both know the reason why you've called
so stop wasting time trying to soften up my fall
I know you wanna sweeten up the taste
but if you don't mind, I'll just take my sorrow straight

You almost make it seem like something nice
the way you take your bad news and you pour it over
ice
That's a kindness I don't appreciate
'cause I like to take my sorrow straight

I wouldn't say that I'm stronger than the rest
but no matter what you say it ain't gonna hurt me any
less
'cause in the end, there is really no escape

so I go on and I just take my sorrow straight

I wouldn't say that I'm stronger than the rest
but no matter what you say it ain't gonna hurt me any
less
'cause in the end, there is really no escape
so I go on and I just take my sorrow straight
