"This Kind Of Happy"

Visit "[This Kind Of Happy](#)" on [MotoLyrics.com](#)

I've traveled high, I traveled low
And there was no place that I didn't go
Looking for this kind of happy with you

I had a love, it wasn't right
And I spent so many lonely nights
Yearning for this kind of happy with you

Happy with you, happy with you
I love the things that you do
It took such a long time that I thought
That I'd never find this kind of happy with you

Happy with you, happy with you
This kind of happy with you

And some day when I draw my final breath
I'm gonna know that I had the best
'Cause I had this kind of happy with you
