Live to disrupt,
I live to destroy
As I target the boiling point so few employ
Silence is deadly so pin back your ears
Cause the axis has shifted
It has been so for years

Initiate, the kill chain
Deviate, my life's terrain
Terminate, by kill chain
The soul is the ground that the angels bleed for

If we are inciting war again we've got to stay strong
If we are deciding war again we've got to be strong
We are here, and it's no mistake
We've got to burn this ground, it's time to detonate
Save your fears because their is no escape
And we won't be long

So far enraged
Victim found, fixed, engaged
On this life's simple call
I'm a target to all
This battle is made
With the micro management
Of serpents for all
We don't rise just to fall

Initiate, the kill chain
Deviate, my life's terrain
Terminate, via kill chain
The soul is the ground that the angels bleed

If we are inciting war again we've got to stay strong
If we are deciding war again we've got to be strong
We are here, and it's no mistake
We've got to burn this ground, it's time to detonate
Save your fears because their is no escape

And we won't be long
And we won't be long
