Reading letters
Ancient coins
And pockets full of earth
Chance I'll see you
Next December

Bathtub running
Joining hands
And naked as a bird
That's a vision
I'll remember

Pull the covers of the bed
The papers of the ground
Now a baby
Walks where you do

Take her book off of the shelf
And put your teacup down
Know my hopes
Lay beside you

You're camera set in motion
Take a picture of the ocean
Catch the seagull up above
Make a whisper of your love

Put your hair and watch it grow
This time durates the floor
You're a beauty in the family
Spend your money for the month
He can afford you more
Keep your courage like memory

You're camera set in motion
Take a picture of the ocean
Catch the seagull up above
Make a whisper of your love
