

Iron Butterfly "High On A Mountain Top"

Visit "[High On A Mountain Top](#)" on MotoLyrics.com

Never knowing the world without you
Never knowing or I'll never doubt you
Never knowing just where you come from
Never knowing if i could be some one with you
High on a mountain top where only i could see
High on the love for you
And you would come to find
What's upon my mind
Just a little love in my life

Never knowing how hard I love you
Never knowing if my hearts above you
Never knowing how hard we try
Never knowing if I life or die with you

High on a mountain top where only i could see
High on the love for you
And you would come to find
What's upon my mind
Just a little love in my life

High on a mountain top where only i could see
High on the love for you
And you would come to find
What's upon my mind
Just a little love in my life

High on a mountain top
Love in my life
High on a mountain top
Love in my life
High on a mountain top
