"Ghost Of Vengeance"

Visit "[Ghost Of Vengeance](#)" on MotoLyrics.com

I've been through hell and back
I feel the time attack
But I still carry on the dream
I fight the mighty beast
From deep within released
But in the dark I still scream

I take control I try to ease the pain
But everything is in vain
The mirror of my soul is fading out

I am the ghost, ghost of vengeance
Bringing me down
Ghost, the ghost of vengeance
I am the ghost, the ghost of vengeance
Bringing me down
Ghost, the ghost of vengeance
I am the ghost

I see with different eyes
I pull off all the lies
Still I try to run away from myself
I play along to please
It is a deadly disease
Once again the clock strikes twelve

I take control I try to ease the pain
But everything is in vain
The mirror of my soul is fading out

I am the ghost, ghost of vengeance
Bringing me down
Ghost, the ghost of vengeance
I am the ghost, the ghost of vengeance
Bringing me down
Ghost, the ghost of vengeance
I am the ghost

All the lies I tell myself every day
It has taken me straight to hell
I know the truth but it's killing me

I will not face reality

I take control I try to ease the pain
But everything is in vain
The mirror of my soul is fading out

I am the ghost, ghost of vengeance
Bringing me down
Ghost, the ghost of vengeance
I am the ghost, the ghost of vengeance
Bringing me down
Ghost, the ghost of vengeance
I am the ghost
