Mind machine

Arion has provided a new fighting power  
The alien Armageddon force will attack

The evil doctor with the devil, hand in hand  
Creating thunder with a little help from down under  
One with the master mind, domination be designed  
The chaos engineer behind the machine in gear

Pain is coming, blood is running  
Down the blade

Mind machine  
You won't see it, even if it's close  
Mind machine  
Cyber liquid overdose  
Mind machine  
The monster of a new age  
Mind machine  
The doctor spreads his disease

Mind machine  
Lifetime of defeat, the evil circle will repeat  
Madness has found a home  
Sky-high in the thunder dome  
Seen before in history, this time there is no mercy  
The code in the end, humanity will descend

Pain is coming, blood is running  
Down the blade

Mind machine  
You won't see it, even if it's close  
Mind machine  
Cyber liquid overdose  
Mind machine  
The monster of a new age  
Mind machine  
The doctor spreads his disease

Evil is coming, it's coming your way  
Evil is coming, it's coming your way  
Coming your way  
Coming your way

Pain is coming, blood is running  
Down the blade

Mind machine  
You won't see it, even if it's close  
Mind machine  
Cyber liquid overdose  
Mind machine  
The monster of a new age  
Mind machine  
The doctor spreads his disease  
Mind machine  
Cyber liquid overdose  
Mind machine  
The monster of a new age  
Mind machine  
The doctor spreads his disease  
Mind machine
