

## Iron Fire

### "The Battlefield"

Visit "[The Battlefield](#)" on MotoLyrics.com

We'll make them burn and bleed  
And won't accept defeat  
When sunrise come  
We will charge with magic force  
No matter what we meet  
There's nothing we can't beat  
Unholy giants will fall down  
By the mighty blade

But tonight we hold our women tight  
We light a fire and share tales about how  
We will fight

In the battlefield  
We bleed  
In the battlefield  
It's death on repeat  
In the battlefield  
We die  
In the battlefield  
We say goodbye

This time we won't retreat  
We all will face the heat  
When the dying day comes for us  
We will stand up straight  
In the mists we rise  
As our brothers die  
This is the place where we will meet our final fate

But tonight we hold our women tight  
We light a fire and share tales about how  
We will fight

In the battlefield  
We bleed  
In the battlefield  
It's death on repeat  
In the battlefield  
We die  
In the battlefield

We say goodbye

In the battlefield  
We die  
We will make them pay  
And they will bleed tonight  
The victory of the bloody sword

But tonight we hold our women tight  
We light a fire and share tales about how  
We will fight

In the battlefield  
We bleed  
In the battlefield  
It's death on repeat  
In the battlefield  
We die  
In the battlefield  
We say goodbye

In the battlefield  
It's death in repeat  
In the battlefield

Death, death, death on repeat!
