I feel my resolve strengthen

I see my arms lengthen

I'm gonna shed my skin

And fly away

I'm gonna grow wings

I've got to change things

I need to grow inside

And just move on

I've got to get out

There can be no doubt

I need to change inside

And just move on

My resolve grows strong

And my arms grow long

I'll rip my skin off

And fly away

So now you know

I've got to go

Already gone

I'm moving on
