(Andy Fraser, Paul Rodgers)
(Original by Free)

I was born by the river, just like this river
I've been moving ever since
Ain't got nobody to call my own
You know I've been moving since the day I was born
Life is a game just made for fun
You know I don't love nobody, I don't love no one

Yes, I'm a mover, baby

Following the footsteps; One fine day
when I asked the wise man which was the way
he said: "Follow your heart and look for yourself
and come back and tell me what you have learned"

Yes, I'm a mover, baby

Went back and told him, I found me a wife
Eleven children and a real good life
Told him of love and there's a happy home
But I need to return to that long winding road

Yes, I'm a mover, baby
Gotta move on down
Mmmmove on
