My telescope looks out into the stars tonight  
A little speck of light seems twice the size tonight  
The calculations are so fine, can it be growing all the  
time?

Now I can't believe it's true and I don't know what to do  
For the hundredth time I check the declination  
Now the fear starts to grow even my computer shows  
There are no errors in the calculations

Now it's happened, take no other view  
Collision course, you must believe it's true  
Now there's nothing left that we can do

When two worlds collide  
The anger and the pain of all those who remain  
Two worlds collide  
Who will be left alive, no place to hide when two worlds  
collide  
The anger, the pain, of those who remain when two  
worlds collide  
When two worlds collide, so who will survive  
There's no place to hide, when two worlds collide

Now it's happened, take no other view  
Collision course, you must believe it's true  
Now there's nothing left that we can do

When two worlds collide  
The anger and the pain of all those who remain  
Two worlds collide  
Who will be left alive, no place to hide when two worlds  
collide  
The anger, the pain, of those who remain when two  
worlds collide  
When two worlds collide, so who will survive  
There's no place to hide, when two worlds collide

When two worlds collide  
The anger, the pain, of those who remain when two  
worlds collide

When two worlds collide, so who will survive  
There's no place to hide, when two worlds collide  
When two worlds collide, the anger the pain  
When two worlds collide, when two worlds collide
