Sharp as the blade to skin
I cant resist those deadly pins
Smoke fills my fallen lungs
To my death I have plunged

Ice pick has sliced my heart
Devils blood, not too smart
No easy way to go
My lifes end I have chosen

Its crept into my mind
Poison has made me blind
Terror has ripped my soul
The blood the final tollthe blood
The final toll

Evil is in my head
It says I should be dead
The cold and big dark clouds
The heat his deadly roundsthe
Heat his deadly roundsyeah
