Stay away from the 7 deadly  
They'll surely lead you astray  
Don't mind the fact that man commits them, each and  
every day  
Why is every great indulgence  
Considered evil taboos  
Restricting all of man's pleasures, a souls redemption  
he shall loose

[Chorus:]  
Endulging, never languishin'  
Exploit emotions within  
Bearing sinister grin  
SODDEN WITH SIN

Straight narrow minds that follow  
These strict rules to obey  
Fearing God; cardinal virtues, the soul is the highest  
price to pay  
Committing 7 deadly sins  
Ordaining the heavenly virtues  
Damnation awaits the masses, for the actions that we  
now choose

[Chorus]

Pride in everything that you do  
Envy others who have more than you  
Greedy for earthly treasures, angry for not obtaining  
these pleasures  
Lust the love that never gives back  
Gluttonous soul, now turns to black  
Man is sloth now accepting his fate, sodden with sin;  
it's too late

[Chorus]
