"Time For Change"

Visit "[Time For Change](#)" on MotoLyrics.com

Red rolls final place, where do we
End this chase
Hard times people lose, there are
Choices they cant choose
Man in power on the top form
Dreams and evil plots
I know its time to move, get out
And use your tools

Change this now, you know how
Leaders fear, this is the year
So vote now, you know how
Vote now

40 years since the war, inner fighting
On house floor
President doesnt see, what the
People really need
A roof and food for all the crew
Come now raise your voice, theres
More than a few choices

Foot soldiers are here
To make it clear
Power to make change can really
Take place
So people vote now, you know how
So vote now
