

## Iron Mask

### "Broken Hero"

Visit "[Broken Hero](#)" on MotoLyrics.com

From Father to son, relate to me your past  
You were a lonesome orphan child  
No one is innocent, don't listen to their complaints  
You left everything behind, just to find a better land

I'll heal your broken heart, I need you here by my side  
Relieve your lonely soul, don't be a broken hero  
... broken hero

Like a little boy, I imagine your life  
You survived poverty and war  
You were seeking for justice and freedom  
Facing the frontiers machine guns  
You left all you loved behind just to find a better place

I'll heal your broken heart, I need you here by my side  
Relieve your lonely soul, don't be a broken hero  
... broken hero
