Like taking candy from a graveyard
Pro bandage curfew
Thermal piss eyes/threat/function
Autonomic click buzz fumes
Prosthetic tooth + jaw to non
Arm of paranoid narco virus
Chief judicial of invisible empire
Exile at wars end of slave booze pain
All it is is taking some pill to increase a shot
Syringe hit scum king
Two thieves a fucking mock survivor
Hypno watt seepage through drunken sores
Fink pig illness tractor
Face press revelation
Garbage front stalwart
A psychotic plea from a dirty prison
World in a bottle mud-fight transmitter
Prozac frozen in ultra deep storage

Man made object of cultish reverence
