Gas disease machine  
Cunt-fraud  
Deaths during rock magic  
Fettered arms reach for blackened penis  
Separation of delusion and cum  
Soil of disorder  
Survival of the shittest

Obese male feeding begins  
Conspiracy of a sonic war  
And all are abnormal in this volition  
Unshakable, fucked, impervious  
Primal myths dictate unseen voices  
Anxiety climaxed at widespread suppression

I been eatin' old man rum  
Holy men fused to smack  
Danger of reconditioning  
Mystical black eye  
Phased in and off odd outfit

Injury from spider clamp  
Amped to spider clamp  
Gain rise from the head
