A flash of destruction
Like a blaze cut through the night
The heaven's on fire
They were glowing in unholy light

Your sudden assault
Broke all the dreams of unification
The hunger for power
It's the lash of civilization

Despaired and in pain
All seems so in vain

Fires in the sky, defenseless we stand
Tonight we will die
Shadows of the end, the kingdom will fall
Life it will finally descend

Perceive what you've done and repent

Careless we thought
All you do is to bark at the moon
But in the grip of fury
You have conjured the dawning of doom

Is this our fate
Wiped out by your hate

Fires in the sky, defenseless we stand
Tonight we will die
Shadows of the end, the empire will fall
Life it will finally descend

Goddess of the seas
Let us rest in peace
In her cold embrace
We will find our graves

Silence will set in
Will existence begin, again

Fires in the skies, helpless we stand

Defenseless we'll die
Shadows of the end, the kingdom will fall
Life will descend

Fires in the sky, helpless we stand
Defenseless we'll die
Shadows of the end, Atlantis will fall
Life it will finally descend, descend for evermore
