Ironik:

I just wanna know what you want me to do
To keep the love up there
What would you like, you like
Big up Bless Beats
Listen

Would you like if I held your hand?
Would you like if I took you to all my shows and showed
you all my fans? (Would you like that, would you like?)
Would you like if I called you mine?
Would you like if I told everyone that you was my girl
and you was my wife? (Would you like that, would you
like?)
Would you like if we was life?
Would you like if I read your mind?
Would you like if I knew when you was upset so I could
make you fine?
Would you like if I could sing?
So I could sing sweet melodies to make you go weak?
(Would you like that, would you like?)

Bless Beats:

Would you like that?
If we did it again made you feel this love?
Would ya, would you like that?
If I showed you I could never get enough
I know ya, I know you'd like that
????????????????????????????????
'Cause I know you'd like that
I'm gonna love (love) you (you).

Ironik:

Listen
Would you like if I took you far?
Would you like if I took you out with me so you could
meet the stars (Would you like that, would you like?)
Would you like if you gave me a choice?
And said it's out with me or out with all your boys
(Would you like that, would you like?)
Would you like if I took my time

And gave you more respect and then maybe you'll be
mine (Would you like that, would you like?)
Would you like if this was for you?
'Cause I know that you don't have a clue (Would you
like that, would you like?)
Maybe this one's for you.

Bless Beats:

Would you like that?
If we did it again made you feel this love
Would ya, would like that?
If I showed you I could never get enough
I know ya, I know you'd like that
????????????????????????????????
'Cause I know you'd like that
I'm gonna love (love) you (you)
(x2)

I'm gon love ya (x3)
Yes I do (x3)
