She is a whore of Shadizar  
Such beauty never seen before  
Her smile a gift from Bel and Ishtar  
I cannot bear any more

Be my wench tonight  
And I'll make you my queen  
Be my slave tonight  
Then I'll set you free

She's just waiting to please me  
The woman begs to be fed  
Now your body belongs to me  
At my command she kisses my hand

Be my wench tonight  
And I'll make you my queen  
Be my slave tonight  
Then I'll set you free

My eyes ablaze, all I do is take  
Black lotus and rum takes us high  
She moans with pleasure over and over  
Let's burn away the night

Be my wench tonight  
And I'll make you my queen  
Be my slave tonight  
Then I'll set you free
