I met a man with a mastermind  
He looked at me with his opened eyes  
He laid his hand on me and said you need some help  
He told me not to be afraid  
You're gonna be the one who saves  
Eternal pain are what they live in  
They are the slaves  
I can't believe my own two eyes  
When I look into the land  
The wasteland where it's people are in pain

Beyond tomorrow we'll be strong  
We fight for the one who will join us  
Together we ride out 'cause we will return  
Once again in the end

We are the saviors  
We are the saviors  
We are the saviors for you  
We are the saviors  
We are the saviors  
We are the saviors for you

We break the line to a land of fear  
To give a helping hand don't fear  
We break the defense right down to the ground  
The man I met with a mastermind  
He looked at me with his opened eyes  
He said I'll do it someday with you again

Beyond tomorrow we'll be strong  
We fight for the one who will join us  
Together we ride out 'cause we will return  
Once again in the end

We are the saviors  
We are the saviors  
We are the saviors for you  
We are the saviors  
We are the saviors  
We are the saviors for you

So the world is dark and cold  
You've got nowhere to go  
There is no-one out there to protect your soul  
But you shall have no fear  
Do you know who we are?  
We are the saviors tonight

Beyond tomorrow we'll be strong  
We fight for the one who will join us  
Together we ride out 'cause we will return  
Once again in the end

We are the saviors  
We are the saviors  
We are the saviors for you  
We are the saviors  
We are the saviors  
We are the saviors for you tonight
