This is my Reason for leaving  
This is my heart And it's bleeding  
There's no reason to run  
There's no reason to hide

Can you admit, We are the same X4

This is my Reason for Living  
This is my Heart and it's bleeding  
There's no reason to run  
From misery to cry

Can you admit, We are the same X4

You came to, Me with this  
Reason of why we missed this  
I want to, Fix this to  
Let's let the greed disappear

We should be together  
Can you admit we are the same
