All the March things pale
I felt stupid being there
But it was easy enough for you to like
I tried not to look so bored
just to have you not say
"are you pleasant when I'm not around"
March was fair at best
March was fair at best
It rained some and that was good

because it made the sky clear
and you could see downtown
A couple of other days weren't bad
I mean they were alright
They just weren't very good.
March was fair at best
March was fair at best
