I can see  
Visions so far away  
Day by day  
Pictures appear to me  
I know it's all because of my mind  
There's something wrong in there when I find  
That I'm in time of trouble I drink it all away

Have a try  
Come down to me one night  
Look and find  
Drink and you'll be so kind

To be the better one in my way  
You have to drink yourself like I say  
You'll gonna see then wonderful things and you want  
me

To stay

I gotta go on 'cause I need it so  
I need it  
So badly

I gotta go on 'cause I need it so  
I need it  
So badly

One fine day  
I saw a plane around  
In my mind  
Also were purple lights

To be the better one in my way  
You have to drink yourself like I say  
You'll gonna see then wonderful things and you want  
me  
To stay
