1st verse:]

Tell me, dear, would you like to see the town a bit?  
Would you like to go around?  
If you'd care to be where there's a whole lot doin'  
Then you better come down  
Let's go down to where ev'rybody's doin' it  
Where they never wear a frown  
You will have a ton full of fun, little hon'  
If you follow me around

[chorus:]

Follow me around, all around, all around  
Chasing, racing all around the town  
Don't you make a sound, make a sound, make a sound  
And you'll be glad before the night is over  
That you followed me around, all around, all around  
We will cover lots of ground  
I've got the key to most ev'ry cabaret  
Where there's an hour of joy we can grab away  
We'll discover places that Columbus never found  
Dearie, if you follow me around

[2nd verse:]

Let's go where ev'rybody makes a night of it  
Where they've thrown away the key  
Where a stein full of wine starts your head a-buzzin'  
Like a troublesome bee  
Rest assured, ever since I got the sight of it  
There I always want to be  
Let me tell you, pet, that I've yet to regret  
So you better follow me
