Maybe it's because the kiss you gave me, touched my heart and went right through.

I can't tell you why, I only know that I fell helplessly in love with you.

How I fell in love with you!

I could say you're grand and therefore I care for you so.

But there is a why and wherefore and I'd like to know.

Maybe it's because the star I wished on, made a certain wish come true.

Or it just should be that you were meant for me, and maybe I was meant for you.

Maybe it's because the song we danced to, told a story old and new.

I can't figure out just why it came about.
