"When Winter Comes"

Visit "[When Winter Comes](#)" on MotoLyrics.com

Winter is coming and soon
There will be frost on the moon
Snow will be falling and what am I going to do?
I'll need somebody to hold
Someone to hold when it's cold
Someone to love and I hope that that someone is you

The sun will shine in the summer
And I'll be fine in the summer
But then I've got to have you
To cuddle up to
When winter comes

It's nice and warm in the summer
I'll be in form in the summer
But then I've got to have you
To cuddle up to
When winter comes

All summer I'll be playing out on a tennis court
But in the winter
Just like the groundhog
I'll turn in to an indoor sport

I'll pull an oar in the summer
And hug the shore in the summer
But then I've got to have you
To cuddle up to
When winter comes
