1st verse:]

Listen, honey dear  
I've been feeling queer  
I don't know what to do  
Since I fell in love with you  
It's true  
I'm feeling so lonesome and blue too  
I'll go crazy soon  
Morning, night and noon  
I'm just going around  
With my eyes upon the ground  
And now, my honey I've found

[chorus:]

You've got me hypnotized  
I'm certainly mesmerized  
I thought I was wise  
Till I gazed in your beautiful eyes  
That very day  
You stole my heart away  
I'm doing things I shouldn't do  
Things I wouldn't do  
Things I couldn't do  
I could do for you  
Just because you've got me hypnotized

[2nd verse:]

Honey, just for you  
If you asked me to  
Like a baby I'd crawl  
Ev'ry time I hear you call  
I'm all  
Wrapped up in a heavenly shawl, all  
That I do is fret  
Till my eyes are wet  
If my love disappears  
I would sit and cry for years  
And weep an ocean of tears
