

Isaac Hayes "It's Heaven To Me"

It's heaven to me when you're near
And i can see those lovely angel eyes
So tenderly inviting me to the land of your desires

It's heaven to me when you speak
The sound of music fills my soul
Melody that hypnotizes me echoing softly
It grows and grows

It's heaven to me when our lips touch
It intoxicates my mind
My breath almost abandons me
My head spins uncontrollably so unaware of space or
time

It's heaven to me when our trembling bodies melt in
unity
Ten thousand stars explode
I'm high as i can go lovin' you
Feeling free
