# "Could You Ever"

Visit "[Could You Ever](#)" on MotoLyrics.com

Please forgive what I said  
all my words I regret  
hope you never ever let go  
now I know I needed you so  
Tears are drowning my heart  
I need you to  
tell me tell me baby.....

Could you ever love me again  
if I say that I'm sorry  
could you ever hold me  
the way we used to hold eachother  
would you ever trust me same  
if I say that I'm sorry  
could you ever love me again

I softly whisper your name  
dont wanna burn out the flame  
I never ever doubted my mind  
when there's a mountain to climb  
You got the words in your heart  
I need you to  
tell me tell me baby.....

Could you ever love me again  
if I say that I'm sorry  
could you ever hold me  
the way we used to hold eachother  
would you ever trust me same  
if I say that I'm sorry  
could you ever love me again

I want you close  
closer than close  
could you ever love me again
