Look at you now, you're a work of art
Are you the same guy who's always had my heart?
What a transformation from what you used to be
Do you ever even wonder where you'll be without me?

Refrain:

Everyone knows I'm good for you baby
Everyone knows it, everyone but you
Everyone knows I'm good for you baby
But maybe, maybe I'm too good for you
You take me for granted when all I ever want
Is a bit of appreciation for all I've done
They say I've been a fool for far too long

If you don't know what I'm worth
Then something is wrong

Refrain

They say I've been a fool for far too long
If you don't know what I'm worth
Then something is wrong

Refrain 2x

Too good, too good for you
Too good for you?
