I will not give up
I will not give in
You can take it all
Away from me
I will start again
I will not give up
I will not give in
You can take everything I got but not what I believe in
You can break my back
But I will bear it
You can break my heart
But not my spirit
Make a break from the everyday
Make a break from the everyday
Break free from your daily routine
Break free
Break free
Don't call me poor
Don't call me useless
You don't know what my dreams are
You don't know
You will never know.
