By corrupted intentions  
I walk alone on this field  
Ravenous for vengeance for the boy's life they took  
I will reap! Back into the glorious days where I seized  
to be when the sun set high  
A shortened life I recall  
And so should you!  
Then there was a darkness  
A fury of destructive minds  
A mothers cry brought pain to the remains of a living  
I feel so cold!  
Back where I belong to be they dont know my name  
A boy of a forgotten time a victim of pre-posterousness  
That is me!  
Come now deliver me to the prophet I seek  
I'm the one spitting blood  
I'm the one Forged by Wolves  
Years have past beneath my feet since I left my  
childhood at home  
A dark and rainy day indeed  
Which have followed me to this day  
Now a state of mind  
The alpha-male of the pack see what I used to be  
Feelings of what I've become transmuted into  
consumption  
Beware the wolf!  
Veteran of cheating death  
Dodging bullets from beneath  
I've become what you will fear  
The one that never returns  
The savage one!  
All bounds has been broken  
To the life that I knew  
And new bounds are now sown with my brothers in the  
herd  
I am pain!  
Now I see myself in a grave  
A hole my own hands have dug  
Blistered feet and gangrene  
My body seem to rotten from core  
I will remain!
