I came, you went  
Was there something I should have said?  
I'm sure that isn't I'm supposed to know

If I could be myself for just a minute  
And I could make her pleased with myself in this  
relationship  
Now all I want is a moment alone  
Without you, without you

Time out but keep the tapes rolling  
Just in case I say anything brilliant  
Time out but keep those cameras rolling  
Just in case I don't look this good forever

Like hell I'm spent  
You were someone I shouldn't have met  
For your own sake let's take my side for once

If I could be myself for just a minute  
And I could make her pleased with myself in this  
relationship  
Now all I want is a moment alone  
Without you, without you

Time out but keep the tapes rolling  
Just in case I say anything brilliant  
Time out but keep those cameras rolling  
Just in case I don't look this good forever

I'm sure that isn't I'm supposed to know

Time out but keep those cameras rolling  
Just in case I don't look this good forever  
Time out but keep those tapes rolling  
Just in case I say anything brilliant
