

The Cab "Living Louder"

Visit "[Living Louder](#)" on MotoLyrics.com

If today's the day I die
Lay me down under the lights
Let me fall in love
Let me save a life

And let me lose my voice
Singing all my favorite songs
Let me stare up at the stars
'Cause it's where we all belong

My heart like a fire
Work in my chest
My only regret
Is having regrets
Traveled the world
I loved every step
And all I know is...

No one, no lives forever
But we will be remembered
For what we do right now

Baby, I'm living louder
And dreaming longer tonight
(Living louder, we're living louder)
And baby, I'm fighting harder
And loving stronger tonight
(Loving stronger, we're loving stronger)

Because we're all just kids
Who grew up way too fast
Yeah, the good die young
But the great will always last

We're growing older,
But we're all soldiers tonight

If today's the day I go
Gonna drink with all my friends
Gonna laugh until we cry
As we talk and reminisce

Let me kiss a stranger
And rob the local bank

Let me become real rich
So I can give it all away

No one, no lives forever
But we will be remembered
For what we do right now

Baby, I'm living louder
And dreaming longer tonight
(Living louder, we're living louder)
And baby, I'm fighting harder
And loving stronger tonight
(Loving stronger, we're loving stronger)

Because we're all just kids
Who grew up way too fast
Yeah, the good die young
But the great will always last

We're growing older
But we're all soldiers tonight

When you got your breath inside your head
Everyday's a second chance
If I wake up with a beating heart
Will I stand or will I fall apart?

Living louder, dreaming longer tonight
Baby, I'm fighting harder and loving stronger tonight

Baby, I'm living louder
And dreaming longer tonight
(Living louder, we're living louder)
And baby, I'm fighting harder
And loving stronger tonight
(Loving stronger, we're loving stronger)

Because we're all just kids
Who grew up way too fast
Yeah, the good die young
But the great will always last

We're growing older
But we're all soldiers tonight
